Fk 12 Comet

The lightweight
two-seater sport biplane

Folding wings
 Demountable full-cockpit-canopy
 Available as kit or ready to fly

Specifications * - FK 12 Comet

engine versions	Rotax 912 / 912-5
empty weight in base configuration	584 lbs
max. take off weight	1190 lbs
wingspan	22 ft
length	18 ft 5 in
height	6 ft 5 in
demonstrated Vstall	35 knots (40 mph)
Vne	118 knots (137 mph)
cruise (75%)	93 knots (107 mph)

Design:

Fuselage and tail unit frames are constructed of tubular steel / aluminum cased mostly with preformed composite panels and covered with Ceconite fabric. The wing frames are reinforced carbon-fiber with the rear part fabric covered. Simple cross bracing with streamlined wires. The flaperons are made out of aluminum with Ceconite cover..

* MTOW and performance data depend on engine type and national regulation system under which the aircraft will be registered.

Fk 12 Comet

The LSA aerobatic
fun machine!
